Features

In the height of a hot Australian summer one of the best ways of protecting and cooling your home is by using external awnings. At Contract Blinds we are able to offer a complete range of external awnings to suit every application.

Our range consists of automatic, fixed guide, straight drop spring roller, rope and pulley, and folding arm awnings.

To complement this range of awnings we are able to offer the traditional canvas fabric ranges of, Addalong, Somerton and Hunter Douglas, along with the brilliant colours and designs of the Docril and Dickson Acrylics. Whilst these blackout fabrics offer excellent protection, you may also consider the Vistaweave Sunscreen range which not only gives great protection but also allows you to look through it and retain your view.

Combined with the latest wide range of hood colours, our awnings provide a stylish and practical answer to protecting your home on hot summer days.
